Consulate General of Romania

Subject: Explanation for the Absence of Medical Insurance for Romania Visa Application

Dear Sir/Madam,

I am writing this letter to provide a plausible explanation for my inability to obtain medical insurance for my upcoming trip to Romania. My visa application number is E12440142864783, and I am a Canadian permanent resident applying for a type C visa for the purpose of participating in the Bosch Future Mobility Challenge, an autonomous driving competition hosted by Bosch Romania.

I have been trying to secure medical insurance coverage for my trip, but unfortunately, I am unable to provide the required medical insurance at this time. However, I would like to assure the Consulate that I have made arrangements to cover any medical expenses that may arise during my stay in Romania. I have set aside an emergency fund specifically for this purpose. My latest bank statement, enclosed in the financial means section, demonstrates that I have sufficient funds to cover any potential medical expenses. Additionally, I am aware of the medical facilities and hospitals in Romania, and I am prepared to pay for any medical treatment I may require out-of-pocket.

I understand the importance of having medical insurance while traveling and regret my current situation. Rest assured, I take full responsibility for my healthcare needs during my visit to Romania and will not burden the Romanian healthcare system or government with any expenses.

I hope that this explanation is sufficient for the consideration of my visa application. I look forward to exploring the beautiful country of Romania and experiencing its rich culture and history.

Thank you for your understanding and for considering my visa application.

Sincerely,

Xi Yang Li
