Consulate General of Romania

Subject: Explanation for the Absence of Car Documents for Romania Visa Application

To whom it may concern,

I am writing to explain why I cannot provide car documents as part of my visa application for Romania.

I am a Canadian permanent resident and a student at the McGill University. I am applying for a short-term visa to visit Romania from May 3rd to May 7th, 2023. The purpose of my visit is to participate in the Bosch Future Mobility Challenge, an autonomous driving competition organized by Bosch Romania. I am part of a team of four students who have been selected to represent Canada in this international event.

As part of the competition, we will not be driving or renting any other car during our stay in Romania. Therefore, I do not have any car documents to submit with my visa application.

I have attached the following documents to support my visa application and to prove the purpose of my visit:

- A letter of invitation from Bosch Romania, confirming my participation in the competition and covering my expenses for accommodation, transportation, and meals.
- A copy of my passport and two passport-sized photos.
- A copy of my travel itinerary.

I hope that these documents are sufficient to demonstrate my eligibility for a visa and my intention to return to Canada after the competition. I respectfully request that you consider my visa application favorably and grant me a short-term visa for Romania.

Thank you for your time and attention.

Sincerely,

Xi Yang Li
